If the General Contractor wishes to make a claim for an increase in the Contract Sum, he shall give the City written notice thereof within twenty (20) days after the occurrence of the event giving rise to such claim. This notice shall be given by the General Contractor before proceeding to execute the Work. No such claim shall be valid unless so made. Any change in the Contract Sum resulting from such claim shall be authorized by Change Order.

The cost or credit to the City resulting from a Change in the Work shall be determined in accordance with this Contract. If the Contract is silent on the cost for such additional work, prior to the commencement of such changed or revised work, General Contractor shall submit promptly to the City, a written cost or credit proposal for such revised Work for consideration and acceptance by the City. If City and General Contractor shall not be able to agree as to the amount, either in consideration of time or money to be allowed or deducted, it shall nevertheless be the duty of General Contractor, upon written notice from the City, to immediately proceed with such alteration or change, and General Contractor shall be compensated the reasonable value of such Work.

Minor Changes in Work. The Public Works Director shall have authority to order minor changes in the Work not involving any adjustment in the Contract Sum or the Construction Schedule and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the City and the General Contractor.

Coordination with Utilities. General Contractor shall contact and coordinate with all affected utilities prior to commencing any operations. Prior to commencement of any work involving excavation, demolition of facilities or the erection of posts, it will be the sole responsibility of the General Contractor to notify all utilities of the planned work and request that the utilities suitably mark underground installations in the vicinity of the planned work, and arrange for disconnection of any necessary utilities.

Uncovering of Work. If any Work should be covered contrary to the request of the City, it must, if required by the City, be uncovered for his observation and replaced, at General Contractor's expense. If any Work has been covered which the City has not specifically requested to observe prior to being covered, the City may request to see such Work and it shall be uncovered by General Contractor. If such Work is found to be in accordance with the Contract Documents, the Cost of uncovering and replacement shall, by appropriate Change Order, be charged to the City. If such Work is found not to be in accordance with the Contract Documents, General Contractor shall pay the costs of uncovering and replacement.

Correction of Work. The General Contractor shall promptly correct all Work rejected by the City as defective or as failing to conform to the Contract specifications and requirements, whether observed before or after substantial completion of the Work, and whether or not fabricated, installed or completed. The General Contractor shall bear all cost of correcting such rejected Work.

Site Restoration. The General Contractor at all times shall keep the Work site free from accumulation of waste materials or rubbish caused by his operations. Upon completion of the Work, General Contractor shall restore the worksite to its reasonable condition prior to commencing the Work.

City's Right to Stop Work. If General Contractor fails to correct defective Work or fails to supply materials or equipment in accordance with the Contract Documents, the City may order General Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated.

City's Right to Carry Out Work. If General Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents, or fails to perform any provision of the Contract, the City may, after seven (7) days written notice to General Contractor and without prejudice to any other remedy the City may have, make good such deficiencies. In such case an appropriate Change Order shall be issued deducting from the payments then or hereafter due General Contractor the cost of correcting such deficiencies. If the payments then or thereafter due the General Contractor are not sufficient to cover such amount, General Contractor shall pay the difference to the City upon request.

Warranty. The General Contractor warrants to the City that all materials and equipment furnished under the Contract and incorporated in the Work will be new unless otherwise specified, and that all Work will be of good quality, free from faults and defects and in conformance with the Contract. All Work not so conforming to these standards shall be considered defective. The General Contractor shall furnish satisfactory evidence as to the kind and quality of all materials and equipment and shall warrant the Work after substantial completion of the Work.

One Year Correction Period. In addition to the General Contractor's general warranty obligation hereunder and as required by applicable law, the General Contractor also hereby expressly guarantees the aforesaid Work as to workmanship and

quality of materials used in connection herewith for a term of one (1) year, commencing on the date of final acceptance by the City, and binds itself, its successors or assigns, to make all repairs or replacements which may become necessary within said period due to construction defects and nonconformity with the Contract Documents. Upon expiration of the one (1) year correction period, the City shall release the Performance and Maintenance Bond, less any amounts reasonably necessary to remedy any of the General Contractor's performance and/or maintenance obligations under this Agreement that may still be outstanding at the time. General Contractor's general warranty obligations required herein and the one-year correction period as required herein, as well as any other obligation to provide surety or a bond, are each an independent and separate obligation of General Contractor. The release or expiration of any guaranty, or any other surety or bond provided for in this Agreement shall not release, or be claimed to release, the obligation to complete the Work according to all warranties, specifications, and requirements expressed or implied by this Agreement or required by applicable law.

Indemnification. To the fullest extent permitted by law, the General Contractor agrees to defend with counsel selected by the City, and indemnify and hold harmless the City, its officers, engineers, representatives, agents and employees from and against any and all liabilities, damages, losses, claims or suits, including costs and attorneys' fees, for or on account of any kind of injury to person, bodily or otherwise, or death, or damage to or destruction of property, or any other circumstances, sustained by the City or others, arising from breach of the Contract or out of services and operations performed hereunder by the General Contractor or Subcontractors, or claims relating thereto, and including but not limited to the City's reliance on or use of the services or products provided by the General Contractor or Subcontractors under the terms of this agreement. The General Contractor shall not be liable for any loss or damage attributable solely to the negligence of the City. Nothing herein shall authorize the City to indemnify the General Contractor. To the extent required by law to enforce this provision, General Contractor agrees that this indemnification requires General Contractor to obtain insurance in amounts specified herein and that General Contractor has had the opportunity to recover the costs of such insurance in the Compensation set forth in this Agreement.

Insurance. The General Contractor shall obtain and maintain for itself during the term of the Project and the Contract liability insurance coverage of at least \$3,100,000 aggregate and \$460,000 per occurrence. Insurance policies providing required coverages shall be with companies licensed to do business in the State of Missouri and rated no less than AA by Best or equivalent. All costs of obtaining and maintaining insurance coverages are included in the compensation amount and no additional payment will be made therefor by the City. In addition, the General Contractor shall provide Worker's Compensation Insurance in at least statutory amounts for all workers employed for the Services.

Before commencing any Work, the General Contractor shall provide to the City certificates of insurance evidencing the issuance and maintenance in force of the coverages required by this paragraph and bearing an endorsement precluding cancellation of or change in coverage without at least thirty (30) days written notice to the City. Any self-insurance or deductible above \$50,000.00 is not permitted. The City may waive any insurance coverages or amounts required to be carried by the General Contractor under this paragraph when the City deems such waiver to be in the interest of the public health, safety, and general welfare.

NOTHING HEREIN SHALL BE CONSTRUED AS A WAIVER OF THE CITY'S SOVEREIGN IMMUNITY UNDER SECTION 537.610.1 OR OTHERWISE. The purpose of the insurance required under this paragraph is to confirm that the General Contractor has adequate insurance to cover the General Contractor for tort claims that may arise out of the Work. It is not for the purchase of insurance for the City EXCEPT FOR AND ONLY TO THE LIMITED EXTENT OF any claims against the City arising out of the General Contractor's Work and based upon one of the two statutory exceptions to sovereign immunity as expressly set forth in Section 537.600.1(1) and (2). To that limited extent, the City shall be named as an additional insured on the policy bearing an endorsement that: "The Insurer shall not be liable to make any payment for Loss in connection with any Claim made against the City of Fenton as an additional Insured that is barred by sovereign immunity, and nothing contained in this Policy shall constitute a waiver of the City's sovereign immunity." Nothing in this requirement shall be deemed a waiver of the City's sovereign immunity.

Attorney Fees' and Costs. The Consultant shall reimburse to the City any costs and attorneys' fees that the City may reasonably incur in pursuit of any remedies at law or equity or enforcement of any rights established in this Agreement, which may result from the Consultant's breach of the Agreement, the Consultant's failure to perform any obligation or requirement contained herein, or the City's enforcement of this Agreement.

Taxes. The City is exempt from federal excise tax and Missouri sales tax and the Consultant shall not charge the same to the City.

Nondisclosure. The General Contractor agrees that it will not divulge to third parties without the written consent of the City any information obtained from or through the City in connection with the performance of this Contract. Nothing herein shall preclude disclosure of information by the city.

Other Representations and Other Covenants. The General Contractor represents that he has visited the site, familiarized himself with the local conditions under which the Work is to be performed, and correlated his observations with the requirements of the Contract Documents. The General Contractor represents and warrants that the General Contractor has been engaged in such Work as is required for the Project and has provided services such as the ones to be performed under this Agreement to other municipalities and/or private enterprises and that the General Contractor owns sufficient equipment and engages sufficient personnel to perform the General Contractor's obligations under this Agreement. The General Contractor further represents and warrants that the General Contractor is an equal opportunity employer. The General Contractor agrees that the General Contractor shall not use in any form or medium the name of the City for any advertising unless the General Contractor receives the prior written consent of the City.

Termination. The City shall have the right to terminate the Contract at any time for any reason by giving the General Contractor written notice to such effect. The City shall pay to the General Contractor in full satisfaction and discharge of all amounts owing to the General Contractor under the Contract an amount equal to the cost of all Work performed by the General Contractor up to such termination date, less all amounts previously paid to the General Contractor on account of the Contract Price. The General Contractor shall submit to the City its statement for the aforesaid amount, in such reasonable detail as the City shall request, within thirty (30) days after such date of termination. The City shall not be liable to the General Contractor for any damages on account of such termination for loss of anticipated future profits with respect to the remainder of the Work.

Termination by City for Cause. In addition to all other remedies available to the City, the City may terminate the Contract if General Contractor:

1. Repeatedly refuses or fails to supply enough properly skilled workers or proper materials;
2. Disregards applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of a public authority; or
3. Otherwise is guilty of substantial breach of a provision of the Contract Documents.

When any of the above reasons exists, the City may without prejudice to any other rights or remedies of the City and after giving the General Contractor and the General Contractor's surety, if any, seven days' written notice, terminate employment of the General Contractor and may, subject to any prior right of the surety:

1. Exclude General Contractor from the site and take possession of all materials, equipment, tools, and construction equipment and machinery thereon owned by General Contractor;
2. Finish the Work by whatever reasonable method the City may deem expedient. Upon written request of General Contractor, the City shall furnish to General Contractor a detailed accounting of the costs incurred by the City in finishing the Work.

When the City terminates the Contract for cause, the General Contractor shall not be entitled to receive further payment until the Work is finished. If the unpaid balance of the Contract Sum exceeds costs of finishing the Work, including compensation for professional services (including architects and engineers) and expenses made necessary thereby, and other damages incurred by the City and not expressly waived, such excess shall be paid to General Contractor. If such costs and damages exceed the unpaid balance, General Contractor shall pay the difference to the City. The amount to be paid to the General Contractor or City, as the case may be, shall be certified by the project architect, upon application, and this obligation for payment shall survive termination of the Contract.

Multi-year contracts; Non-appropriation. Notwithstanding any provision herein to the contrary, the City is obligated only to make the payments set forth in the attached contract as may lawfully be made from funds budgeted and appropriated for that purpose during the City's then current fiscal year at the discretion of the City. If no funds are appropriated or otherwise made legally available to make the required payments for this Agreement during the next occurring fiscal year (an "Event of Nonappropriation"), this Agreement will terminate at the end of the then current fiscal year as if terminated expressly. The failure or inability of the City to appropriate funds for this Agreement in any subsequent fiscal year shall not be deemed a breach of this Agreement by any party. If applicable, this Agreement may be annually renewed at each fiscal year by inclusion of specific appropriation for this Agreement, from year to year not to exceed the maximum renewal period or term as set forth in the Agreement.

Accounting. During the period of this Contract, the General Contractor shall maintain books of accounts of its expenses and charges in connection with this Contract in accordance with generally accepted accounting principles and practices. The City shall at reasonable times have access to these books and accounts to the extent required to verify all invoices submitted hereunder by the General Contractor.

Other Contractors. The City reserves the right to employ other consultants and contractors in connection with the Work.

**CITY OF FENTON, MISSOURI
PURCHASE CONTRACT GENERAL CONDITIONS**

Compliance with Laws. The Seller shall comply with all applicable City ordinances and other laws and regulations, Federal, State, and any political subdivision thereof, including but not limited to, unemployment and workers' compensation, occupational safety, equal employment and affirmative action and wage and price laws insofar as applicable to the performance of the Purchase Contract. If applicable to any Work undertaken as part of this Contract, Consultant and any subcontractor shall require all on-site employees to complete the ten-hour training program required under § 292.675.2 RSMo. such employees must hold documentation of prior completion of the program and shall be subject to such penalties as provided in § 292.675.4 RSMo. Consultant further agrees, to the extent applicable to any Work undertaken as part of this Contract, to pay not less than the prevailing hourly wage of wages to all workers performing any such applicable work under this Contract. The consultant will forfeit a penalty to the City of \$100 per day for each worker that is paid less than the prevailing rate for any work done under the Contract by the Consultant or subcontractor that required payment of prevailing wage under state law. In the event of a conflict between laws, codes, and regulations of various governmental entities having jurisdiction over the Product, the Seller shall notify the City of the nature and impact of such conflict. The City agrees to cooperate with the Seller in an effort to resolve any such conflict. Seller shall secure and pay for all permits, governmental fees, and licenses necessary for the proper installation of the Product, including those required to be obtained from the City, except fees imposed solely by the City shall be waived at the time of application.

Independent Consultant. Seller shall be and operate as an independent consultant in the performance of this Contract. Seller shall have complete charge of the personnel engaged in the performance of the Work, and all persons employed by the Seller shall be employees of said Seller and not employees of the City in any respect.

Indemnification. To the fullest extent permitted by law, the Seller agrees to defend with counsel selected by the City, and indemnify and hold harmless the City, its officers, engineers, representatives, agents and employees from and against any and all liabilities, damages, losses, claims or suits, including costs and attorneys' fees, for or on account of any kind of injury to person, bodily or otherwise, or death, or damage to or destruction of property, or any other circumstances, sustained by the City or others, arising from breach of the Purchase Contract or related warranties, or claims relating thereto, and including but not limited to the City's reliance on or use of the Products provided by the Seller under the terms of this Purchase Contract. The Seller shall not be liable for any loss or damage attributable solely to the negligence of the City provided, however, that nothing in this Contract shall require or authorize the City to indemnify the Seller. To the extent required to enforce this provision, Seller agrees that this indemnification requires Seller to obtain insurance in no event less than the maximum amounts of liability set forth in Chapter 537.610 RSMo. applicable to political subdivisions and that Seller has had the opportunity to recover the costs of such insurance in the Compensation set forth in this Agreement.

Nondisclosure. The Seller agrees that it will not divulge to third parties without the written consent of the City any non-public information or information designated as confidential obtained from or through the City in connection with the performance of this Purchase Contract.

Changes. No change in this Purchase Contract shall be made except in writing executed by all parties. The Seller shall make any and all changes in the Product without invalidating this Purchase Contract when specifically ordered to do so in writing by the City. The Seller, prior to the delivery of such changed or revised Product, shall submit promptly to the City, a written cost or credit proposal for such revised Product. If the City and the Seller shall not be able to agree as to the amount, either in consideration of time or money to be allowed or deducted, it shall nevertheless be the duty of the Seller, upon written notice from the City, to immediately proceed with such alteration or change, and the Seller shall be compensated the reasonable value of such Product. **No delivery of Product or change shall be undertaken or compensated for without prior written authorization from the City executed by Seller.**

Attorney Fees' and Costs. The Seller shall reimburse to the City any costs and attorneys' fees that the City may reasonably incur in pursuit of any remedies at law or equity or enforcement of any rights established in this Agreement, which may result from the Seller's breach of the Agreement, the Seller's failure to perform any obligation or requirement contained herein, or the City's enforcement of this Agreement.

Termination. The City shall have the right to terminate the Purchase Contract at any time for any reason by giving the Seller written notice to such effect. The City shall pay to the Seller in full satisfaction and discharge of all amounts owing to the Seller under the Purchase Contract an amount equal to the cost of all Product delivered by the Seller up to such termination date, less all amounts previously paid to the Seller. The Seller shall submit to the City its statement for the aforesaid amount, in such reasonable detail as the City shall request, within thirty (30) days after such date of termination. The City shall not be liable to the

Seller for any damages on account of such termination for loss of anticipated future profits with respect to the remainder of the Product.

Product. The Product as described in the Scope of Services and Seller's proposal shall be delivered to the City and no other substitute product shall be delivered without written approval of the City.

Warranty of Title. The title conveyed shall be good and its transfer rightful and shall not unreasonably expose the City to litigation because of any colorable claim to or interest in the Product. The Product shall be delivered free from any security interest or other lien or encumbrance.

Express Warranties. Any affirmation of fact or promise made by the Seller which relates to the Product and becomes part of the basis of the bargain creates an express warranty that the Product shall conform to the affirmation or promise. Any description of the Product which is made part of the basis of the bargain creates an express warranty that the Product shall conform to the description. Any sample or model that is made part of the basis of the bargain creates an express warranty that the whole of the Product shall conform to the sample or model. It is not necessary to the creation of an express warranty that the Seller use formal words such as "warrant" or "guarantee" or that the Seller has specific intention to make a warranty.

Implied Warranty. A warranty that the Product shall be merchantable is implied. Products to be merchantable must at least: be delivered in accordance with the Purchase Contract description; and in the case of fungible products, (a) are of fair quality within the description; (b) are fit for the ordinary purposes for which product of that description are used; (c) run, within the variations permitted by the agreement, of even kind, quality of quantity within each unit and among all units involved; (d) are adequately contained, packaged, and labeled as the Agreement may require; and (e) conform to the promise or affirmation of fact made on the container or label if any. Other implied warranties may arise from the course of dealing or usage of trade. Because Seller knows the particular purpose for which the Product is required, and that the City is relying on the Seller's skill or judgment to select or furnish suitable products, there is an implied warranty that the Product shall be fit for such purpose.

Right to Inspect. The City has a right before payment or acceptance to inspect the Product at any reasonable place and time and in any reasonable manner. The inspection may also be within a reasonable time after delivery and installation of the same. Expenses for inspection may be recovered from the Seller if the Product does not conform and are rejected.

Rights on Improper Delivery. If the Product delivered fails in any respect to conform to the Purchase Contract, the City may: (a) reject the whole; (b) accept the whole; or (c) accept any units and reject the rest and the Seller must adjust such Purchase Contract price accordingly.

Revocation of Acceptance. The City may revoke acceptance of a lot or commercial unit whose nonconformity substantially impairs its value to the City if the City has accepted it: (a) on the reasonable assumption that its nonconformity would be cured and it has not been seasonably cured; (b) revocation was within a reasonable time after delivery; or (c) without discovery of the nonconformity if the City's acceptance was reasonably induced either by the difficulty of discovery before acceptance or by the Seller's assurances. In the case of revocation, the City has the same rights and duties as if the City had rejected the Product.

Remedies. If the Seller fails to make delivery or the City rightfully rejects, the City may in addition to recovering so much of the price as has been paid: (a) "cover" and receive damages of the cost difference between the cost of cover and the contract price for all the Product affected plus incidental or consequential damages; or (b) recover as damages for non-delivery the difference between the market price at the time the City learned of the breach and the Purchase Contract plus any incidental and consequential damages. If the Seller fails to deliver or repudiates, the City may also recover the Product, obtain specific performance, or replevy the Product. In the event of breach or failure to make delivery, the City is also entitled to liquidated damages as described in the executed Purchase Contract. Nothing in this Purchase Contract shall be deemed to be a waiver of the City's sovereign immunity or permit a cause of action against the City for damages relative to any claim against the City, and any remedy against the City shall be limited to specific performance as may be available under existing law.

Site Operations. Where appropriate, the City will arrange for right of entry to any property at the request of the Seller for the purpose of performing studies, tests, and evaluations in connection with the Work.

Taxes. The City is exempt from federal excise tax and Missouri sales tax and the Seller shall not charge the same to the City.

Compliance with State Immigration Statutes. As a condition for the award of this Agreement, the Consultant shall, by sworn affidavit and provision of documentation, affirm its enrollment and participation in a federal work authorization program with

respect to the employees working in connection with the Work. The Consultant shall also sign an affidavit affirming that it does not knowingly employ any person who is an unauthorized alien in connection with the Work. Such affidavits shall be in substantially the form provided in **Exhibit B**. The Consultant shall not be required to provide these affidavits to the City if such affidavits have been previously provided to the City within the past year. All words in this paragraph shall have the definitions as provided in Section 285.525 R.S.Mo.

Pursuant to Section 208.009 R.S.Mo., the Seller shall provide at the earlier of submission of any bid or execution of any agreement affirmative proof that the Applicant for the Seller is a citizen or a permanent resident of the United States or is lawfully present in the United States. The Applicant for the Seller (or "Applicant") shall be the person authorized to prepare, submit and sign contract documents on behalf of the Seller and shall be eighteen years of age or older. Such affirmative proof shall include documentary evidence recognized by the Missouri Department of Revenue when processing an application for a driver's license, a Missouri driver's license, as well as any document issued by the federal government that confirms an alien's lawful presence in the United States.

Representations. The Seller agrees that it has not relied on any representations or warranties of the City, oral or written, other than expressly identified in this Purchase Contract. The parties agree the Purchase Contract represents the entire agreement between the parties.

Governing/Choice of Law. This Purchase Contract shall be governed by and construed and interpreted in accordance with the internal laws of the State of Missouri, without regard to its principles of conflict of laws. As a prerequisite to the Seller filing any claim against the City in any court of law or equity pursuant to this Contract, the Seller agrees that its shall be bound to first file such claim with the City's Board of Administrative Review, pursuant to and in accordance with Chapter 160 of the City Code.

Counterparts. This Purchase Contract may be executed in one or more counterparts each of which shall be deemed an original and all of which shall constitute one and the same agreement.

General Contractor shall comply with all applicable laws, ordinances, rules, regulations, and lawful orders of any public authority having jurisdiction over the safety of persons or property to protect them from damage, injury or loss. The General Contractor shall erect and maintain all reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards, promulgating safety regulations and notifying the City and users of adjacent utilities. The General Contractor shall provide signs, barrels, or any other safety devices which the City deems necessary for public safety. No additional payment will be made and this work shall be considered incidental to the Contract. The City may place safety devices as it deems necessary if the General Contractor fails to provide the required items within 24 hours of notification. The Contract Sum shall be reduced by the cost of these devices. All damage or loss to any property caused in whole or in part by General Contractor, any subcontractor, any sub-subcontractor, or anyone directly or indirectly employed by anyone for whose acts they may be liable, shall be remedied by General Contractor.

Construction Limits. The construction limits consist of public areas. General Contractor shall limit his operations accordingly and shall not enter upon private property nor place any materials thereon. No activity outside the public areas or easement areas shall be performed without the express written permission of the property owner and City. Suitable temporary barriers shall be provided to protect traffic from the Work if necessary. At all times until final acceptance of the Work, the Contractor shall provide and maintain such signs, lights, barriers, cones, watchmen or flaggers as may be necessary to properly protect the Work and provide for safe and convenient public travel. In the case of open excavations or other potentially hazardous conditions existing during non-working periods, the traveling public will be protected and advised by signs and flasher barricades. Parking of equipment or storage of materials on or near the Project site will be permitted only if adequate protective devices are provided and then only for the minimum time required for any specific job.

Labor and Materials. Any manufactured goods or commodities used or supplied in the performance of the Project or any subcontract thereto shall be manufactured or produced in the United States as required and in accordance with Section 34.353 RSMo.

- a) This section shall not apply when:
 - 1) The purchase, lease, or contract involves an expenditure of less than twenty-five thousand dollars;
 - 2) Only one line of a particular good or product is manufactured or produced in the United States;
 - 3) The specified products are not manufactured or produced in the United States in sufficient quantities to meet the City's requirements or cannot be manufactured or produced in the United States within the necessary time in sufficient quantities to meet the City's requirements;
 - 4) Obtaining the specified products manufactured or produced in the United States would increase the cost of the contract by more than ten percent.
- b) If this section shall not apply because of the circumstance described in paragraphs (a)(3)-(4), then the General Contractor shall provide the City with the information necessary to make the certifications required under Section 34.353 RSMo.

General Contractor shall at all times enforce strict discipline and good order among his employees and shall not employ on the Work any unfit person or anyone not skilled in the task assigned to him. If the City reasonably objects to any person employed by the General Contractor or Subcontractor, the employee shall be removed from the site. General Contractor shall be responsible to the City for the acts and omissions of all his employees and all Subcontractors, their agents and employees and all other persons performing any of the Work under a contract with General Contractor.

Subcontracts. This Contract shall not be assigned by the General Contractor. Except as expressly authorized herein, the General Contractor shall not subcontract any of the Work to be performed by it hereunder without the express written consent of the City.

Changes; Change Orders. No change in this Contract shall be made except in writing prior to the change in work or terms being performed. The Public Works Director, without invalidating the Contract, may order Changes in the Work within the general scope of the Contract consisting of additions, deletions, or other revisions, with the Contract Sum and the Construction Schedule being adjusted in accordance with this Contract. All such changes in the Work shall be authorized by Change Order and shall be executed under the applicable conditions of the Contract Documents and City's purchasing policy. A Change Order is a written order to the General Contractor signed by the City or City representative, issued after the execution of the Contract, authorizing a change in the Work or an adjustment in the Contract Sum or the Construction Schedule. The Contract Sum may be changed only by Change Order.

The General Contractor shall make all requests for a Change Order on forms provided by the City upon written request to the City. If the General Contractor wishes to make a claim for an increase in the Contract Sum, he shall give the City written notice thereof within twenty (20) days after the occurrence of the event giving rise to such claim. This notice shall be given by the General Contractor before proceeding to execute the Work. No such claim shall be valid unless so made. Any change in the Contract Sum resulting from such claim shall be authorized by Change Order.

The cost or credit to the City resulting from a Change in the Work shall be determined in accordance with this Contract. If the Contract is silent on the cost for such additional work, prior to the commencement of such changed or revised work, General Contractor shall submit promptly to the City, a written cost or credit proposal for such revised Work for consideration and acceptance by the City. If City and General Contractor shall not be able to agree as to the amount, either in consideration of time or money to be allowed or deducted, it shall nevertheless be the duty of General Contractor, upon written notice from the City, to immediately proceed with such alteration or change, and General Contractor shall be compensated the reasonable value of such Work.

Minor Changes in Work. The Public Works Director shall have authority to order minor changes in the Work not involving any adjustment in the Contract Sum or the Construction Schedule and not inconsistent with the intent of the Contract Documents. Such changes may be affected by Field Order or by other written order. Such changes shall be binding on the City and the General Contractor.

Coordination with Utilities. General Contractor shall contact and coordinate with all affected utilities prior to commencing any operations. Prior to commencement of any work involving excavation, demolition of facilities or the erection of posts, it will be the sole responsibility of the General Contractor to notify all utilities of the planned work and request that the utilities suitably mark underground installations in the vicinity of the planned work, and arrange for disconnection of any necessary utilities.

Uncovering of Work. If any Work should be covered contrary to the request of the City, it must, if required by the City, be uncovered for his observation and replaced, at General Contractor's expense. If any Work has been covered which the City has not specifically requested to observe prior to being covered, the City may request to see such Work and it shall be uncovered by General Contractor. If such Work is found to be in accordance with the Contract Documents, the Cost of uncovering and replacement shall, by appropriate Change Order, be charged to the City. If such Work is found not to be in accordance with the Contract Documents, General Contractor shall pay the costs of uncovering and replacement.

Correction of Work. The General Contractor shall promptly correct all Work rejected by the City as defective or as failing to conform to the Contract specifications and requirements, whether observed before or after substantial completion of the Work, and whether or not fabricated, installed or completed. The General Contractor shall bear all cost of correcting such rejected Work.

Site Restoration. The General Contractor at all times shall keep the Work site free from accumulation of waste materials or rubbish caused by his operations. Upon completion of the Work, General Contractor shall restore the worksite to its reasonable condition prior to commencing the Work.

City's Right to Stop Work. If General Contractor fails to correct defective Work or fails to supply materials or equipment in accordance with the Contract Documents, the City may order General Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated.

City's Right to Carry Out Work. If General Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents, or fails to perform any provision of the Contract, the City may, after seven (7) days written notice to General Contractor and without prejudice to any other remedy the City may have, make good such deficiencies. In such case an appropriate Change Order shall be issued deducting from the payments then or hereafter due General Contractor the cost of correcting such deficiencies. If the payments then or thereafter due the General Contractor are not sufficient to cover such amount, General Contractor shall pay the difference to the City upon request.

Warranty. The General Contractor warrants to the City that all materials and equipment furnished under the Contract and incorporated in the Work will be new unless otherwise specified, and that all Work will be of good quality, free from faults and defects and in conformance with the Contract. All Work not so conforming to these standards shall be considered defective. The General Contractor shall furnish satisfactory evidence as to the kind and quality of all materials and equipment and shall warrant the Work after substantial completion of the Work.

One Year Correction Period. In addition to the General Contractor's general warranty obligation hereunder and as required by applicable law, the General Contractor also hereby expressly guarantees the aforesaid Work as to workmanship and

quality of materials used in connection herewith for a term of one (1) year, commencing on the date of final acceptance by the City, and binds itself, its successors or assigns, to make all repairs or replacements which may become necessary within said period due to construction defects and nonconformity with the Contract Documents. Upon expiration of the one (1) year correction period, the City shall release the Performance and Maintenance Bond, less any amounts reasonably necessary to remedy any of the General Contractor's performance and/or maintenance obligations under this Agreement that may still be outstanding at the time. General Contractor's general warranty obligations required herein and the one-year correction period as required herein, as well as any other obligation to provide surety or a bond, are each an independent and separate obligation of General Contractor. The release or expiration of any guaranty, or any other surety or bond provided for in this Agreement shall not release, or be claimed to release, the obligation to complete the Work according to all warranties, specifications, and requirements expressed or implied by this Agreement or required by applicable law.

Indemnification. To the fullest extent permitted by law, the General Contractor agrees to defend with counsel selected by the City, and indemnify and hold harmless the City, its officers, engineers, representatives, agents and employees from and against any and all liabilities, damages, losses, claims or suits, including costs and attorneys' fees, for or on account of any kind of injury to person, bodily or otherwise, or death, or damage to or destruction of property, or any other circumstances, sustained by the City or others, arising from breach of the Contract or out of services and operations performed hereunder by the General Contractor or Subcontractors, or claims relating thereto, and including but not limited to the City's reliance on or use of the services or products provided by the General Contractor or Subcontractors under the terms of this agreement. The General Contractor shall not be liable for any loss or damage attributable solely to the negligence of the City. Nothing herein shall authorize the City to indemnify the General Contractor. To the extent required by law to enforce this provision, General Contractor agrees that this indemnification requires General Contractor to obtain insurance in amounts specified herein and that General Contractor has had the opportunity to recover the costs of such insurance in the Compensation set forth in this Agreement.

Insurance. The General Contractor shall obtain and maintain for itself during the term of the Project and the Contract liability insurance coverage of at least \$3,100,000 aggregate and \$460,000 per occurrence. Insurance policies providing required coverages shall be with companies licensed to do business in the State of Missouri and rated no less than AA by Best or equivalent. All costs of obtaining and maintaining insurance coverages are included in the compensation amount and no additional payment will be made therefor by the City. In addition, the General Contractor shall provide Worker's Compensation Insurance in at least statutory amounts for all workers employed for the Services.

Before commencing any Work, the General Contractor shall provide to the City certificates of insurance evidencing the issuance and maintenance in force of the coverages required by this paragraph and bearing an endorsement precluding cancellation of or change in coverage without at least thirty (30) days written notice to the City. Any self-insurance or deductible above \$50,000.00 is not permitted. The City may waive any insurance coverages or amounts required to be carried by the General Contractor under this paragraph when the City deems such waiver to be in the interest of the public health, safety, and general welfare.

NOTHING HEREIN SHALL BE CONSTRUED AS A WAIVER OF THE CITY'S SOVEREIGN IMMUNITY UNDER SECTION 537.610.1 OR OTHERWISE. The purpose of the insurance required under this paragraph is to confirm that the General Contractor has adequate insurance to cover the General Contractor for tort claims that may arise out of the Work. It is not for the purchase of insurance for the City EXCEPT FOR AND ONLY TO THE LIMITED EXTENT OF any claims against the City arising out of the General Contractor's Work and based upon one of the two statutory exceptions to sovereign immunity as expressly set forth in Section 537.600.1(1) and (2). To that limited extent, the City shall be named as an additional insured on the policy bearing an endorsement that: "The Insurer shall not be liable to make any payment for Loss in connection with any Claim made against the City of Fenton as an additional Insured that is barred by sovereign immunity, and nothing contained in this Policy shall constitute a waiver of the City's sovereign immunity." Nothing in this requirement shall be deemed a waiver of the City's sovereign immunity.

Attorney Fees' and Costs. The Consultant shall reimburse to the City any costs and attorneys' fees that the City may reasonably incur in pursuit of any remedies at law or equity or enforcement of any rights established in this Agreement, which may result from the Consultant's breach of the Agreement, the Consultant's failure to perform any obligation or requirement contained herein, or the City's enforcement of this Agreement.

Taxes. The City is exempt from federal excise tax and Missouri sales tax and the Consultant shall not charge the same to the City.

Nondisclosure. The General Contractor agrees that it will not divulge to third parties without the written consent of the City any information obtained from or through the City in connection with the performance of this Contract. Nothing herein shall preclude disclosure of information by the city.

Other Representations and Other Covenants. The General Contractor represents that he has visited the site, familiarized himself with the local conditions under which the Work is to be performed, and correlated his observations with the requirements of the Contract Documents. The General Contractor represents and warrants that the General Contractor has been engaged in such Work as is required for the Project and has provided services such as the ones to be performed under this Agreement to other municipalities and/or private enterprises and that the General Contractor owns sufficient equipment and engages sufficient personnel to perform the General Contractor's obligations under this Agreement. The General Contractor further represents and warrants that the General Contractor is an equal opportunity employer. The General Contractor agrees that the General Contractor shall not use in any form or medium the name of the City for any advertising unless the General Contractor receives the prior written consent of the City.

Termination. The City shall have the right to terminate the Contract at any time for any reason by giving the General Contractor written notice to such effect. The City shall pay to the General Contractor in full satisfaction and discharge of all amounts owing to the General Contractor under the Contract an amount equal to the cost of all Work performed by the General Contractor up to such termination date, less all amounts previously paid to the General Contractor on account of the Contract Price. The General Contractor shall submit to the City its statement for the aforesaid amount, in such reasonable detail as the City shall request, within thirty (30) days after such date of termination. The City shall not be liable to the General Contractor for any damages on account of such termination for loss of anticipated future profits with respect to the remainder of the Work.

Termination by City for Cause. In addition to all other remedies available to the City, the City may terminate the Contract if General Contractor:

1. Repeatedly refuses or fails to supply enough properly skilled workers or proper materials;
2. Disregards applicable laws, statutes, ordinances, codes, rules and regulations, or lawful orders of a public authority; or
3. Otherwise is guilty of substantial breach of a provision of the Contract Documents.

When any of the above reasons exists, the City may without prejudice to any other rights or remedies of the City and after giving the General Contractor and the General Contractor's surety, if any, seven days' written notice, terminate employment of the General Contractor and may, subject to any prior right of the surety:

1. Exclude General Contractor from the site and take possession of all materials, equipment, tools, and construction equipment and machinery thereon owned by General Contractor;
2. Finish the Work by whatever reasonable method the City may deem expedient. Upon written request of General Contractor, the City shall furnish to General Contractor a detailed accounting of the costs incurred by the City in finishing the Work.

When the City terminates the Contract for cause, the General Contractor shall not be entitled to receive further payment until the Work is finished. If the unpaid balance of the Contract Sum exceeds costs of finishing the Work, including compensation for professional services (including architects and engineers) and expenses made necessary thereby, and other damages incurred by the City and not expressly waived, such excess shall be paid to General Contractor. If such costs and damages exceed the unpaid balance, General Contractor shall pay the difference to the City. The amount to be paid to the General Contractor or City, as the case may be, shall be certified by the project architect, upon application, and this obligation for payment shall survive termination of the Contract.

Multi-year contracts; Non-appropriation. Notwithstanding any provision herein to the contrary, the City is obligated only to make the payments set forth in the attached contract as may lawfully be made from funds budgeted and appropriated for that purpose during the City's then current fiscal year at the discretion of the City. If no funds are appropriated or otherwise made legally available to make the required payments for this Agreement during the next occurring fiscal year (an "Event of Nonappropriation"), this Agreement will terminate at the end of the then current fiscal year as if terminated expressly. The failure or inability of the City to appropriate funds for this Agreement in any subsequent fiscal year shall not be deemed a breach of this Agreement by any party. If applicable, this Agreement may be annually renewed at each fiscal year by inclusion of specific appropriation for this Agreement, from year to year not to exceed the maximum renewal period or term as set forth in the Agreement.

Accounting. During the period of this Contract, the General Contractor shall maintain books of accounts of its expenses and charges in connection with this Contract in accordance with generally accepted accounting principles and practices. The City shall at reasonable times have access to these books and accounts to the extent required to verify all invoices submitted hereunder by the General Contractor.

Other Contractors. The City reserves the right to employ other consultants and contractors in connection with the Work.

Project Records and Work Product. The General Contractor shall provide the City with copies of all documents pertinent to the Work which shall include, without limitation, reports, correspondence, meeting minutes, and originals of all deliverables. The City shall own all right, title and interest, including without limitations, all copyrights and intellectual property rights, to all documents and Work Product of the General Contractor created in performance of or relating to this Contract. General Contractor agrees to take all steps reasonably requested by the City to evidence, maintain, and defend the City's ownership rights in the Work Product. At the conclusion of the job, the General Contractor shall submit to the City one (1) set of mark ups for as-builts.

Site Operations. Where appropriate, the City will arrange for right of entry to any property at the request of the General Contractor for the purpose of performing studies, tests, and evaluations in connection with the Work.

Personnel. The Work shall be performed exclusively by the personnel of the General Contractor and authorized subcontractors and no other personnel shall perform any of the Work without the express written approval of the City.
